## ***Sensitive, Professional Care***

***Let us introduce ourselves to you.*** We are Russ and Ann Grelling, the owners and hands-on administrators of Grelling Residential Home. We understand that the decision to seek a residential home for your adult family member or client with developmental disabilities is rarely a simple one. You may have concerns about selecting an appropriate residence. ***Let us help you with your concerns.***

You will want to know that our care professionals will respond to the concerns and needs that your loved one or client presents with compassion, empathy and understanding. ***Our supportive staff will put you at ease from the onset of the placement process.***

Compassion is important; but alone, it is not enough. You will also want assurance that our staff has the training and experience to provide accurate assessment and service. Whether you are pursuing ***social integration, adaptive life skills, exciting community activities, behavior programs, medical and mental health services, or employment support,*** you will want someone with the expertise to guide.

At Grelling Residential Home, we will provide you with both ***compassion and expertise*** through understanding and skill, empathy and knowledge, sensitivity and professionalism.

---

## **Our Mission Statement**

While providing sensitive, professional care, ***our mission is to assist our adult residents in their growth toward personal independence; and to equip them to reach their maximum potentials.*** Our mission is implemented by a highly professional, and specially trained staff of care providers who share our “family-style” values.

## **Our Philosophy**

We are inspired by our residents’ possibilities, imaginations, and dreams. It is ***our philosophy that our residents’ goals are best accomplished by evidence-based practices and best practices within a caring environment.*** We will constantly strive to be at the forefront of providing residential care that enables our residents to achieve their highest potentials.

## **Our Residents**

Our residents, 18-59 years of age, live in a four bedroom home, staffed by caring, professional employees. We serve and support adults with moderate to severe developmental disabilities. These disabilities may include mental retardation, epilepsy, cerebral palsy, autism, or similar disabling conditions.

## **Our Professional Accreditation**

Our adult, board-and-care home has been ***licensed by Community Care Licensing and vendored by the San Gabriel Pomona Regional Center*** at the 4-C Level to be a 24-hour-a-day, adult residential facility for six ambulatory adults. The licensed ratio of staff to residents is one to three.

---

## **Our Friendly Community**

Located on a quiet cul-de-sac in the family-friendly community of La Verne, California, our safe, clean home is just a few steps from our city’s community resources.

- Almost two blocks distance from Grelling Residential Home, residents are able to enjoy the La Verne ***Community Center*** for activities such as community dances for the special needs community, adult classes, and billiards.
- Next door to the Community Center is the ***Public Library*** providing internet opportunities on state-of-the-art computers, along with books, CDs and DVDs, to check-out for personal use.
- Also conveniently located near by, our residents will find ***extensive outdoor recreational facilities*** including out-door basketball and tennis courts; a modern, community walking track; the city swimming pool; soccer fields; and a large city park.
- ***City life***, including fast-food and formal restaurants; several shopping centers; many churches; four banks; a 12-screen movie theater; University of La Verne venues, such as plays and sports events; bus and rail lines; and the quaint La Verne Village, ***is all within a short walking distance.***
